Dear Ian,

Thank you for your letter regarding our reception in Co. Cork. We have also had some QSL cards returned from Scotland. We would be very interested to hear if you can receive us in your area.

To answer your question on competition between us, WLR and ABC, we feel that we provide a wider scope of interviews, country, classical, pop, jazz, and Irish music than the others.

We are quite a new station in Waterford, having taken over the old Suirside Radio, and improved it 200%. Crystal City Sound is the first and only radio station in Ireland to be run by two ladies.

I will enclose some of the print material we have available at the moment with a copy of our weekday schedule and weekend schedule. And will be pleased to forward any press releases to be issued in future.

Thank you for your correspondence.

Sandra Penkert.

Station Manager.

Hope you like the profile on our presenters.  
I have prepared this to try to give you an accurate impression of our radio station.  
Look forward to hearing from you again.

You may be interested to know a little about our presenters.

Here is a rough profile on each.

EDDIE COADY: Eddie's breakfast show is guaranteed to wake Waterford up with a smile on his face. A complete natural to radio with a wit and audience all of his own. His Irish show on Sunday morning is hugely popular and probably holds 95% of the radio audience at the time. He is an institution in himself.

JARLETH JUDGE: Jarleth presents the New Horizons News programme every morning (Mon to Fri) based on current local issues. Draws huge phone response on controversial issues. Great demand for advertising time on this show. He also displays his talents as a middle of the road presenter from 05.00 to 08.00 in the evening. Tends to cater for every age group and whim.

SEAN ORGAN: A relative new comer to the station and has proved highly successful. He is very witty and nothing escapes his attention. Likes to make people in authority look silly. Regular features on his programme and great giveaways add up to make his show highly addictive.

KEVIN MAC CARTHY: A comedian both on and off the air. Blends music beautifully. Seans and Kevins show compliment each other perfectly. A celebrity in his own right having won fame in the biggest local nightclub here, but claims to be a legend in his own time!!

Michael Grant: At 08,00 in the evening things tend to slow down and Michael caters just for this. His easy listening approach and selection of music make his programme a must.

SEAMUS SEARSON: It has been said 'Love Affairs begin on Crystal City Sound with Seamus Searson' He believes in this !!! and lives up to the requirements.

SPORTS PROGRAMME: Local National and International sports news is catered for. Local soccer fixtures are announced, racing tips etc. Compulsive listening for any sports fan.

COUNTRY SHOW: I think only a person with the job of keeping the phone lines in check during this show could know how popular and in vogue country music is. Billy Power (otherwise know as Waylon) must be country musics biggest fan. His personal record collection is huge.

PAT O'REGAN<sub>6</sub>: Pat covers local national and international news the way he only could, but on a casual basis. It is really an up date on what happened during the week in between his individual chaoice of music.

STEPHEN DEE. A bit of a disco fanatic, but can control himself on the air. Likes Motown also.
