Comments refer to signal received in North West England. 'Not received' may be taken to mean in the North West only. Some of these stations may well be received in other parts of Great Britain, in which case, we would be very pleased to hear. 'Occasional' means that the station only broadcasts now and again, and has no regular format.

Chart compiled with the help of Barrie Johnston(Blackpool), Sandy Mountain(Blackpool), Gary Hogg(Leeds) and Tony Donlon(Dublin).

Any comments or further information or details of stations would be gladly received at P.O. Box 539, Blackpool, telephone no. (0253)25325 or 882017.

Details of frame/loop medium wave aeriels are available from the above address.
