Comments refer to signal received in North West England. 'Not received' may be taken to mean in the North West only. Some of these stations may well be received in other parts of Great Britain, in which case, we would be very pleased to hear. 'Occasional' means that the station only broadcasts now and again, and has no regular format.

Chart compiled with the assistance of Barrie Johnston(Blackpool), Sandy Mountain(Blackpool), Gary Hogg(Leeds), Tony Donlon(Dublin) and Chris Ridley(Knockcroghery, Roscommon).

Any comments or further information, or details of stations would be gladly received at P.O. Box 539, Blackpool(Telephone No. 0253 25325 or 0253 882017).

Details of frame/loop aerials for improved medium wave reception are available from the above address.
