

Skyport Radio

134 Eastworth Rd
Chertsey
Surrey
England

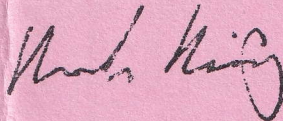

Dear Gary

Thank-you very much for your letter and reception report, which I am pleased to verify with the enclosed QSL-card.

I hope the information on this sheet is of some interest to you, and I will be pleased to receive any furthur questions.

I hope you will continue to listen to the programmes of SKYPORT RADIO, and I look forward to hearing from you again.

Best 73's,

Mark King

GARY,

Please Find enclosed tape. With apologies for the delay in replying but as you probably know skypack is now only on the air from time to time

Station History

SKYPORT RADIO started broadcasting in 1971, on the 41 metre band. In 1973 the station moved to the 49 metre band, and has since used various frequencies on this band.

SKYPORT RADIO is Europe's longest continuous clandestine radio service. We hope you will continue to support us.
